DATA COMPLETENESS -- 93% — all dimensions, weights, capacities and tanks verified against the Forest River factory floorplan detail record; GVWR is derived as UVW plus CCC (Forest River does not print it) and is flagged, and the dealer-typical selling price is flagged; the factory detail page was briefly unavailable, so the tank, awning and layout fields are taken from the byte-identical Geo Pro twin G17SLE and the weights from the factory brand weight block

* Flagged value: not separately published by the manufacturer, or carries a logged source note -- see the full entry online for detail.

Independent reference -- CamperTrailers.com is not affiliated with the manufacturer. Figures are base-unit as published; options change weights. Always confirm against the unit's certification / weight label and your tow vehicle's door-jamb placard before towing.
