DATA COMPLETENESS -- 97% — every dimension, weight, tank, appliance and garage figure on this page is the Grand Design factory value for its own MY2027 floorplan page; payload is the published GVWR minus the published UVW, the same arithmetic the trade catalogs use; the factory publishes the garage length as a bare number with no unit, so it is shown in feet and flagged with an asterisk — feet is the only reading consistent with the rest of the roster, but the unit is our interpretation, not the factory's

* Flagged value: not separately published by the manufacturer, or carries a logged source note -- see the full entry online for detail.

Independent reference -- CamperTrailers.com is not affiliated with the manufacturer. Figures are base-unit as published; options change weights. Always confirm against the unit's certification / weight label and your tow vehicle's door-jamb placard before towing.
