SLEEPING & LAYOUT

Sleeps	7
Slides	3
Awnings	3 · 14 ft + 12 ft + 8 ft
Hitch type	Fifth-wheel (in-bed)
Primary bed	60 X 80 Queen Bed (King Opt.)

DATA COMPLETENESS -- 96% — every dimension, weight, tank, appliance and garage figure on this page is the Grand Design factory value for its own MY2027 floorplan page; payload is the published GVWR minus the published UVW, the same arithmetic the trade catalogs use; the factory publishes the garage length as a bare number with no unit, so it is shown in feet and flagged with an asterisk — feet is the only reading consistent with the rest of the roster, but the unit is our interpretation, not the factory's; the standard solar package carries no panel wattage here because Grand Design's own G-Class fifth-wheel page states two different ratings for it - 175 watts in its prose and 330 watts in its package heading - and no third factory surface breaks the tie, so asserting either number would be a guess

* Flagged value: not separately published by the manufacturer, or carries a logged source note -- see the full entry online for detail.

Independent reference -- CamperTrailers.com is not affiliated with the manufacturer. Figures are base-unit as published; options change weights. Always confirm against the unit's certification / weight label and your tow vehicle's door-jamb placard before towing.
