DATA COMPLETENESS -- 83% — dry weight, cargo capacity, dry pin weight, all three exterior dimensions and all three tank capacities are the Forest River factory figures for 2027, captured twice - once from the line listing and once from the per-plan factory detail page - and cross-checked field by field before publication; GVWR is not published by Forest River for this line and is therefore absent rather than computed. Sleeping capacity, axle count, tire size and MSRP are not published in this channel and are counted as missing rather than filled
