DATA COMPLETENESS -- 95% — all dimensions, weights, capacities and tanks verified against the Forest River factory floorplan detail record; GVWR is published directly per-plan (it equals UVW plus CCC exactly); the published cargo capacity is the factory round figure (one dealer listed a 1,538-lb as-built figure), and only the dealer-typical selling price is flagged

* Flagged value: not separately published by the manufacturer, or carries a logged source note -- see the full entry online for detail.

Independent reference -- CamperTrailers.com is not affiliated with the manufacturer. Figures are base-unit as published; options change weights. Always confirm against the unit's certification / weight label and your tow vehicle's door-jamb placard before towing.
