DATA COMPLETENESS -- 85% — dry weight, cargo capacity, dry tongue weight, all three exterior dimensions and all three tank capacities are the Forest River factory figures for 2027, captured twice - once from the line roster block and once from the per-plan factory detail page - and cross-checked field by field before publication, with GVWR published per plan and dry weight plus cargo capacity equal to it exactly. Sleeping capacity, axle count, tire size and MSRP are not published in this channel and are counted as missing rather than filled
