Water heater	Not published by source for this line*
Cooktop	Not published by source for this line*
Heat	Not published by source for this line*

SLEEPING & LAYOUT

Sleeps	5
Slides	Not published by source
Entries	1
Awning	1 · 8 ft electric

DATA COMPLETENESS -- 84% — travel length, exterior height, all three tanks, dry tongue weight, cargo capacity, axle count and awning length verified against both the CrossRoads factory detail record and the RVUSA structured record with zero disagreement; dry weight, MSRP and maximum sleeps verified against the factory roster card; GVWR published per plan and dry weight plus cargo capacity equals GVWR exactly; CrossRoads publishes no brochure, no construction detail, no slide count, no exterior width and no axle rating for this line, and the air conditioner and refrigerator RVUSA lists are the Zinger line values rather than confirmed Mini figures, so both are flagged rather than asserted

* Flagged value: not separately published by the manufacturer, or carries a logged source note -- see the full entry online for detail.

Independent reference -- CamperTrailers.com is not affiliated with the manufacturer. Figures are base-unit as published; options change weights. Always confirm against the unit's certification / weight label and your tow vehicle's door-jamb placard before towing.
